

Lab Practice

(30 pts)

Description

1. Create a new Android project with the following info:
 - App name: Visit Me
 - App ID: kh.edu.rupp.ite.visitme
 - Minimum SDK: 24
2. Create an Activity with 3 Fragments:
 - HomeFragment: displays static views.
 - PlacesFragment: displays dynamic data from the API.
 - ProfileFragment: displays dynamic data from the API.

Evaluation Criteria

- RecyclerView and API implementation: **15pt**.
- Overall UI design: **10pt**, use any color, any icon, any style which can make it beautiful.
- Project structure: **5pt**.
- *** During the evaluation, you will be asked to modify some parts to make sure that the project was really done by you, not copy from others, not a cheating.
- *** If any cheating is found, zero score will be provided.

API

- Place list: <https://smlp-pub.s3.ap-southeast-1.amazonaws.com/iteapp-api/top-places.json>
- Profile: <https://smlp-pub.s3.ap-southeast-1.amazonaws.com/iteapp-api/user-profile.json>
